# Trivia Items

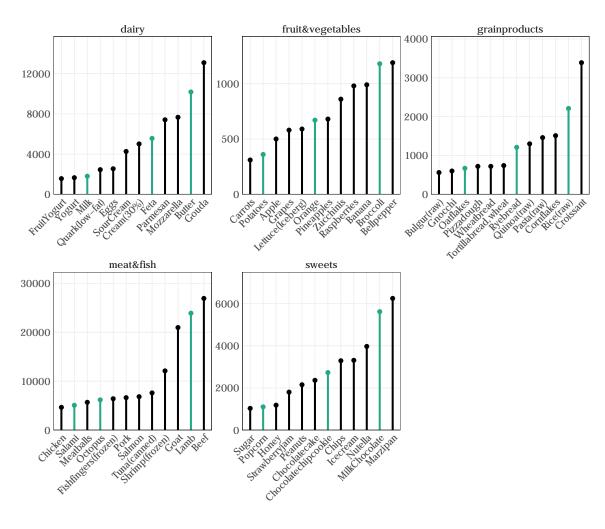

15 trivia facts will be shown during the seeding phase (type = Post) and 6 will be used in a 2AFC-recognition test in the final questionnaire (type = Test).

An average ear of corn has an even number of rows, usually 16 Post A watermelon consists of about 95 percent water. Post Every German needs about 2,700 square meters of farmland for food supply. Children see junk food advertisements an average of 27 times a day. Post Approximately 500 million snails are eaten in France every year. Post The largest cashew tree in the world covers an area of 8,500 square meters. The price of food increased by 9 percent between August 2022 and August 2023. Germans eat about 20 kilos of tomatoes per year.  Caffeine has a half-life of four to six hours.  Chia seeds contain five times more calcium than milk. Post In Germany, peas were grown on 82,600 hectares of land in 2020. Post In Germany, approximately 36,000 tons of pears were harvested in 2023. Rosemary can be harvested after a germination period of about four weeks. There are about 30mg of caffeine in a cup of green tea. Post Farmers plant radishes with approximately 200 seeds per square meter. Fost The Cultivation area of corn in Germany is around 472,200 hectares. Test The German Nutrition Society recommends 400 grams of vegetables per day. Test McDonald's sells 75 hamburgers per second. Test Wheat requires about 500 liters of water per kilogram of dry matter. Test China produced approximately 63 million tons of salt in 2019. Test
